Considering the numerous requests for information for the purchase of “houses for one euro” which, at present, have reached the number of 130,

Hereby

WE INFORM YOU

that the “1 euro houses” initiative is still at the beginning, we are in fact in the process of finding houses for sale.

On the website www.comune.montresta.or.it , at the appropriate link " AVVISO - CASE ad 1 EURO " it will be possible to follow developments and find guidelines. Consequently, the website www.casea1euro.it will also be updated

After the Municipality will receive an offer to sell, with photos and reports required by the same guidelines, at the same “link” will be possible to:

1. See the images of the houses for sale
2. Read the report on the actual state of housing
3. find the “form” to propose a purchase request.

Until then, it will not be possible to make a purchase request.

The municipal departments, because of the work and requests, will no longer respond to the individual questions. Therefore you are all invited to follow the developments directly on the websites.
